EDUCATION

Indian Institute of Information Technology, Bhopal **09/2023 – 05/2027**
Bachelor of Technology in **Information Technology (IT)** **CGPA:8.16**
Relevant Coursework: Data Structure and Algorithms, OOPs, DBMS

EXPERIENCE

Grasim Industries (Aditya Birla Group) - Intern **12/2025 - 01/2026**

- Build a centralized enterprise **Trainee Tracker application** using **Microsoft Power Apps, Dataverse, and SharePoint**, implementing role-based access for **3 user roles** (HR & trainees & department) and **4 core modules** for trainee management, assignments, progress tracking, and certification.
- Automated end-to-end certificate generation and assignment workflows using Power Automate, integrating Dataverse with Word templates to generate and convert documents into PDF format.,
- Reduced manual processing time from **5 minutes** per trainee to under **20 seconds (~95% improvement**) by implementing automated workflows and enabling real-time monitoring through Power BI dashboards**.**

PROJECTS

"ASTRA" - Advanced System for Threat Recognition and Analysis

- Engineered Astra, a full stack web-based security analysis platform using **React, TypeScript, and Vite**, implementing **3** scanning modes (Quick, Deep, Custom) to detect malicious APK files and phishing URLs through automated metadata inspection.
- Designed a multi-layer threat detection pipeline evaluating up to **10 security parameters**, where Quick scans analyze **5 indicators (10s)** and Deep scans process all **10 indicators (20–25s)** to generate a security risk score and downloadable threat report.
- Developed a secure backend using **PostgreSQL**, implementing **JWT**-based authentication and authorization, and designing **RESTful APIs** for reliable storage of scan results and user activity while supporting a responsive dashboard with **12+** reusable React components using **Tailwind CSS**.

"HelpResume"

- Authored a full-stack AI-powered resume builder using **Next.js, React, MongoDB, and Tailwind CSS** with **5+** sections for creating and managing professional resumes.
- Implemented secure authentication using **Clerk** with JWT-based session management and established **4 MongoDB/Mongoose** data models to enable scalable storage and efficient **10+** server-side CRUD operations for data.
- Integrated **Google Gemini API** to generate points across **3** sections, reducing manual writing effort by **60%.**

SKILLS

Programming Languages: C++, C, JavaScript, TypeScript, Python, SQL.
Frameworks & Libraries: React.js, Next.js, Node.js, Fast API, Bootstrap, Tailwind CSS.
Databases: MongoDB, PostgreSQL, MySQL
Tools & Platform: Git, GitHub, VS Code, Postman, MATLAB, Canva, Figma, Burp Suite, Power Apps.

ACHIEVEMENTS

- Ranked **1st** in **India Space Week Competition [East Zone]** organized by **ISRO.**
- Placed **4th** at **OWASP BUG Hunting** organized by **MANIT, Bhopal.**
- Achieved **2star** at **Code Chef** (max Rating: **1555**) & **1500** Rating at Leet Code.
- Solved more than **400+ DSA** problems on **Leet Code, Code Chef and Geeks for Geeks**.
- Earned **Software Engineer Intern** and **SQL (Intermediate)** certifications from **HackerRank (January 2026)**.

POSITION OF RESPONSIBILITY & ACTIVITIES

- Serving as the **Flag Master** for the **Cybersecurity Club (XPLOIT)** at **IIIT Bhopal**. Led and hosted **2 CTF** events with **350+ participants** and curated a structured problem set consisting of **20+ Capture the Flag** challenges.
- Selected as a **Contributor** for **Girl Script Summer of Code 2024** – **Extended Edition**, contributing to open-source projects, collaborative development, and version control using Git/GitHub.
- Contributed to the organizing team of **ARMA CODE 0** — a National Level Hackathon by **IISER Bhopal & IIIT Bhopal** which saw **100+ participants**. Also guided **10 finalists** in developing full-stack web solutions.
- Served as **Magazine Editor & Head**, leading a team, overseeing content strategy and execution to deliver **3** magazine editions.
